The free app comes with a Microsoft account that you can use on the Windows 10 Mobile platform. Please note that the video in the following tutorial is a demonstration. For more info, please check our supported Windows 10 devices and your PC. 1. Download Skype for Business for Windows 10 To download the Skype for Business app, click the bottom right corner of the Windows 10 Mobile screen. Tap on Search and then type "Skype for business". A list of results should appear. 2. Log into Skype for Business If the app indicates that you already have a Microsoft account and you are using Skype for Business, you can skip this step. If you see an error, click on the link that says Sign in. 3. On the sign in page, type your Microsoft account Next, enter your Microsoft account and password. Ensure that you have a Microsoft account that is linked with the organization or country that you want to use Skype for Business. If not, you will be asked to create a new Skype for Business account at that location. 4. Tap Sign in Once you are signed in to your Microsoft account, you will be sent back to the previous screen. Tap on the Skype for Business button. 5. Set up your contact When you tap on the Skype for Business button, you will be shown a list of contacts. If you have not installed the App, you can leave this screen and come back later. If you have the App installed, you can either search for the contact or tap on the contact icon to add them. To start a chat with the contact, tap on it. When you tap on a contact, the App will then display all your contacts that
